

# COLOUR HARDENER

Dry-shake screed floor finish

---

A granolithic concrete material that is floated into fresh screed or concrete which colours, strengthens and creates durable surfaces for concrete floors. It is a special blend of cement incorporating very hard-wearing aggregates, light fast pigments and additives which set rock-hard.

Creating distinctive cement finishes  
as *unique* as you are.

You can get creative and add some extra character to your floor finish by incorporating a tile, wood, aluminium strip, brick or pebble inlay. Alternatively, just cut standard lines which will create giant tiles.

Dust Coloured Release Agent onto the imprint mat. This will ensure that the mat doesn't stick to the surface. Place the mat carefully onto the surface. Stamp the imprint mat to transfer the texture onto the surface.

Remove the imprint mat carefully.
