MORTAR MIX

White & Coloured Masonary Mortar

Mortar Mix comprises of white cement, graded sand and additives to give high bond strength, waterproof joints and high-water retention for workability and plasticity.

BENEFITS

- To give an attractive, waterproof joint for brick and blockwork
- Especially advantageous where consistency of colours, strength and quality are of importance
- Good water retention gives improved bond and bleeding characteristics
- Excellent water absorption qualities
- Can be manufactured to SABS class 1, 2 and 3 specifications and most colours as required

SPECIFICATIONS

Suitable surfaces	Joint for brick and blockwork
Finish	Smooth or textured
Thickness	10mm
Application	Brick trowel and pointing tool
Packaging	40kg bags
Coverage	For 10mm joints approximately 0.8 - 1m ² of 112mm brickwork per 40kg bag of Mortar Mix
Curing	Damp the wall surface with clean water during the day following placing for increased hardness, waterproofness and durability of the mortar joints
Colour/s	Available in 8 colours Custom colours can be made on request
